SNOWSHOES AND WALKS

The best way to experience snowshoes is to seek out fresh snow! This is why, depending on the season, we propose different destinations: Pastore Refuge below the southern wall of Monte Rosa, Peccia lake in Val Vogna or along the Sesia river. Not much snow? There is still a chance: climb to 3000m and snowshoe around Passo dei Salati! If you don't like snow so much, you can have that same wild winter experience with trekking boots and Nordic walking poles.

WINTER RUNNING

Where's the pleasure in running in a cold wood, maybe even in the snow? Well, if you are a runner there's no need for an answer! You already know! Our manager considers it a regular appointment! Followed by the Spa! On the slight slope connecting Alagna with Riva Valdobbia, there are 6 km or 12 km routes, in the woods, beside the river, along the road and on the snow too! We can build a route together, based on your fitness.

Equipment: bring winter running clothes: trousers, t-shirt and long socks, a fleece, warm gloves and cap. And the shoes? Your normal running shoes will do, but if you have them, bring your trail shoes!
